RANCE REJECTS OFFER TO ENTER ARMS PARLEY

Refusal Based on Fact Nation Already Engaged in Limiting War Paraphernalia

PARIS, April 4. (P)-The French government today declined the American invitation to be represented "in some fashion" at the three-power conference for the reduction of naval armaments which is to meet at Geneva with the United States, Great Britain and Japan participating.

er the Easter holidays.

The plenary league conference then will be held in the spring of 1928, although certain delegations are urging it for this autumn.

Efforts today to adjourn the second reading of the preparatory commission's draft of the agends in which the Italians took the lead are actively opposed by the United States and Great-Britain. Agreement was only tentative on aerial disarmament and limitation, half a dozen countries reserving the right to open the whole question again.

serving the right to open the whole question again.

Lord Cecil, discussing the Prench naval thesis, that naval strength should be dealt with on the basts of total tonnage of all classes and no regulations as to how this tonnage should be divided, declared the British empire could never accept it.

He insisted that extension of the principles of the Washington treaties to other classes of ships than capital vessels was the only permissible basis of discussion.

principles of the Washington treaties to other classes of ships than capital vessels was the only permissible basis of discussion.

GHBSON PLEADS
FOR COMMERCIAL PLANTS

GENEVA, April 4. (P)—The American spokesman, Hugh Gibson, again intervened in the disarmament commission parleys today to insist upon the necessity of a sharp division hetween military and civil aviation and the necessity of doing nothing to prevent development of the commercial side of aerial transportation.

He announced that the United States declines to take civil sirplanes into account in any scheme for the limitation of military aircraft.

The discussion, which was inconclusive account in any scheme for the limitation of military aircraft.

for the limitation of military aircraft.

The discussion, which was inconclusive, arose when the French presented a clause whereby, in fixing aerial forces, countries would be authorized to demand more or less, in accordance with the civil aircraft strength of their neighbors. Though several delegates reserved the right to change their attitude, it was agreed that in limiting military airplanes and dirigibles, both the number of the machines and the total horsepower shall be specified. Senor Peres, Argentine delegate, concurred in Gibson's declaration regarding civil aviation. He said Argentina would be unable to accept a convention which tended in any way to limit civil aviation.

OTHER PURPOSES

Mr. Knowies said the application of his device will be in electrical engineering as the tendency now points largely to the adoption of all automatic, semi-automatic and supervisory controls for electrical circuits.

"For this purpose relays of every description are needed," Mr. Knowies concluded. "But in addition to engineering applications my device can be used to protect valuable exhibits in stores, museums and art galeries. It will turn lights on at night and off at daybreak, automatically. It will give advance warning of thunderstorms, guard gas and oil stoves, as well as furnaces, by turning off the fuel supply in case the flame is extinguished accidentally.

"It will count people, automobiles or products passing given points. It will send out slarms in case intruders enter doors, windows, or pass through halis or stairways, and it will provide a delicate fire alarm as well as control the temperature of ovens and furnaces."

Mr. Knowies, the inventor, is only 28 years of age. He is a native of Ohio. After graduating from Purdus University at Lafayette, Ind., in 1923, he joined the Westinghouse research staff.

forming in front of any drug store today. Spring practice started yeaterday, and Jones gave the prospective linesmen a workout that looked more like midseason than April 4. Hopeful huskies who announced themselves as centers, guards, tackles and ends amashed and battered and toiled for a couple of hours on Bovard Field, while Jones drilled them in the fundamentals of line play.

Rumors that Capt. Morley Drury and Bert Heiser would be shifted to line positions were dispelied when they worked under Jeff Cravath, now a coach, with the backfield candidates at tossing and receiving passes.

The linesmen started with the "fundamentalist" of fundamentalis—the gentle art of charging hard and keeping the feet while doing so. Jones faces a tremendous task in rebuilding an entirely new forward line, having only big Jesse Hibbs back from last year's front defenses. There (Continued on Page 2, Column 4)

The Trojans counted again in the fourth when Badgro doubled, taking third and scoring on two sacrifice files. The Cardinals made their first run in the fifth. Sypher and Hardor walked and Sypher scored from second on Capt. Collins's single. U.S.C. came back with another tally in the first of the sixth. Manlove was safe on an error and was sacrificed to second, taking third on a passed ball. He was trapped off third but Hardor dropped Sypher's throw and Manlove scored. Stanford's second run scored in the last half of the sixth. Garibaldi was safe on Galindo's error and went to third when Sypher singled, reaching home on Nissen's infield out. The Cards used three pitchers. Philippi started but was taken out in favor of Collins when the visitors scored their run in the fourth. Sobieski replaced Collins in the first of the eighth. BOSTON, April 4. (P)-Al Mello of Lowell, considered New England's best welterweight, knocked out Ed Roberts of Tacoma, Wash., in the first round of a ten-round bout here tonight.

The fight lasted just two minutes, but it was jammed full of action. A left hook sent the westerner down for a count of five. As he staggered to his feet, Melio met him with a stiff right jab and followed with another vicious left hook that ended the bout abruptly. Roberts was still out when the count was up.

#### McLarnin Fights Cello at Olympic Tonight CHALBRITER'S REMATCH FOR FRANK BRAZILL TOPS COAST SLUGGERS LIGHTWEIGHTS

Boys Who Fought Recent Draw at it Again

Jimmy Older, Stronger Than in Last Bout Here

Zorilla and Carter Tangle in Semi-Wind-up Scrap

Jimmy McLarnin-a little older

He meets Tommy Cello, the S a n Prancisco Italian, in the ten-round

Billy Wallace, also over Tommy O'Brien.

If McLarnin wins decisively he will have taken several steps upward in his march toward the top.

If Cello whips McLarnin then the Irishman will have to come back by developing a knockout punch in order to excite the customers.

Charler (Pop) Poster says McLarnin is twice as strong and rugged as when he last boxed here. He thinks Jimmy will stop Cello.

The eight-round bout between Santiago Zorilla and Benny (Kid) Carter should be one of the fastest bouts seen here in months.

The winner of this fight may be selected to box Bud Taylor soon.

BUT ONE DEPEAT

able excitement in the general vicinity of Hollywood from now on whenever the subject of ice bockey is brought up. The great triumvirate of C. C. Pyle, Tom Gallery and Red Grange is not accustomed to being associated with anything in-animate and as a natural result there should be buckets of thrills as the direct result of the visit of the Chicago Blackhawks, who are to ackle the pick of the local hockeyists in a series of games. Hockey is the wildest and wooll-

hockey is the wildest and woollest of all indoor sports and with the local prides attempting to show the blg-leaguers that they aren't so durn good the competition should be very warm.

One young deserving youth walloped another youth equally deserving and somewhat younger in one of the finest tennis matches ever seen in these parts when Norval Craig beat Johnny Boeg in a hot five-set encounter for the championship of the L. A. Tennis Club. Craig and Doeg thrilled a good-sized crowd with their hard and accurate hitting for the two hours of their grueiling encounter. Deeg has already won national recognition through having captured the national junior title last year, and Craig's steady improvement ought to put him in the spotlight if he goes east this year.

Scouts from U.S.C. and Cnilfornia will be perched in the grand stand with stop watches saturday when the Stanford team tangles with the ull-conference outfit representing most of the local schools. The conference boys are fast enough in most events to give the Cardinals a run for their money and both Cromwell and Christie are pretty much interested in finding out just how fast certain of the Cardinals on go. The race between Tanner of Oxy and the Card hurdling duo, West and Nichols, is sure to be close and the same thing goes for many of the other races on the program. If Richman can beat Murray Schuitz he will get into the sprint points against U.S.C.

RANK BRAZIL, Los Angeles thirdbaseman, carried off first honors in the Coast League batting averages for the first week of play, Brazill clouted out eight safe hits in fifteen

mark of 533.

O'Brien of Portland is a close second with .524, making eleven hits in twenty-one trips to the plate.

Cox, Los Angeles, and Cooper, Sacramento, clouted out ten safe hits in twenty times at bat for an ever. .500. Hank Severeid of Sacramento is listed fifth with .455.

Ray Jacobs, Los Angeles, swatted out ten healthy hits in twenty-three attempts for the high average of .435. Purdy of Seattle batted .429.

August Suhr of San Francisco crossed the plate for eight tallies. Ray Jacobs and Dick Cox are tied for second-place bonors in runs scored, with

ing practice prophesies the greatest championship California has ever known.

More than twelve local weterans, former amateur title-holders, will be in the affair, while the greatest group of youngsters in the country will also be included in the flashiest field the classic has ever drawn.

For the first time during the twenty-six years the southern amateur has drawn the annual spotlight-critics were unable last night to pick an outstanding favorite at the Calcutta dinner. Speculation as to the probable medalist whipped the dinner critics into a frenzy, and established the yearly Calcutta affair as the greatest ever.

Much will depend upon the secring ability of entrants over the first eighteen holes today. Sixty-four low scores and all ties will conclude the thirty-six-hold test tomorrow. The thirty-twe lowest scorers will be drawn for match play in the champlouship flight. The next sixteen players will be matched in the President's Cup, and the final-sixteen in the vice-president's bracket. All match play will be from scratch with title flight semi-finalists and? Manists goffing thirty-six holes to a decision. All other matches will be the regulation eighteen holes.

Pairings for the qualifying play, starting this morning, offer fans a great opportunity to witness what should be marvelous golf. The north course at Beverly is stretched to full championship limits, which means

# Friday Morning, April Eighth

T is our intention to issue to our sales organization on Friday morning, April 8th at 9 o'clock, at 1016 So. Broadway, official maps, prices and definite terms on homesites in that portion of "VIEWPARK" extending upon the summit of the hill west of Mesa Drive and lying both north and south of West Vernon Avenue.

If you haven't already visited this scenic spot you should do so at once. Many have been here and have tentatively selected a location in advance of the day when the announcement of prices and terms will be made.

This is the one spot in all Los Angeles on which you may build your home and be able to enjoy a permanent view from your own window, which will include Beverly Hills, Hollywood, the mountains, ocean and practically all of Los Angeles, and where you will enjoy perfect climatic conditions.

If you haven't seen "VIEWPARK" you haven't seen Los Angeles, because from no other place will you be able to find such a magnificent panoramic view of the city.

"VIEWPARK" summit unit is being improved with paved streets, cement sidewalks, curbs, gutters and electroliers, water and gas. All telephone and electric wiring will be in conduit—nothing to obstruct your view in "VIEWPARK" but the mountains beyond the city.

"VIEWPARK" is but a five-minute car ride on "E" yellow car-line from Exposition Park, the largest Coliseum in Southern California, Manual Arts High School, and the great University of Southern California, enrollment now over 12,000 students and ranking as Southern California's largest university.

# Hello, California! Hello

"PORTLAND, P. N. W." is broadcasting to the people of California the attractions of the whole Pacific Coast, from California to Alaska, for a summer vacation.

A tour of the Pacific Coast—either by sea, rail or highway—offers the world's greatest vacation trip, unequaled in this or any other country!

OREGON, your neighboring state, invites you to plan now for your summer holiday; to spend as much of your time as you can, climbing its mountains, fishing its streams, bathing at its ocean beaches, camping in its forests, hiking over its almost untrodden trails, or playing golf on its picturesque evergreen courses. Then continue your trip to Spokane, Tacoma, Seattle, Victoria, Vancouver and other interesting cities of Washington and British Columbia.

Portland's famous Rose Festival will be held from June 13 to 18, during which one of the world's greatest outdoor spectacles "Rosaria" will be staged, under the direction of Charles Wakefield Cadman, at the Multnomah Stadium. Immediately following it from the 19th to the 22d, the Pacific Coast Advertising Clubs Association will hold its convention in Portland — at which some of the foremost men in America will speak and the entertainment that has been provided will be of a most unusual and elaborate nature.

There will be many Pacific Coast and national conventions at Portland and other northwestern cities. Make your con-vention trip your summer vacation.

It may be, however, that you and your family will decide to just take your holiday by yourselves, in your own party, as 275,000 Californians did last year when they spent the vacation of their lives in Oregon and the Pacific Northwest.

Write us today, tall us what your plans are, and let us send you highway maps, illustrated booklets or any information that will help you to spend a few weeks in one creat cutification. in our great outdoors.

# EASTER EVENT

You Will Find the True Southern California Atmosphere Throughout the Store

For two months we have been planning and preparing for this Special Easter Event. The great markets of the Middle West—the East, even Europe were searched in our endeavor to secure exactly the right things. Style authorities were consulted; hundreds of lines carefully scanned. It was a tremendous task. We feel you will say we have made a splendid job of it.

We received hearty co-operation from many large manufacturers, making possible outstanding values in every department for this event. Everything is in readiness for you to view the smart things in Men's and Boys' Wear; also Ladies' Sports Wear.

Such an assemblage of fine merchandise deserves a fitting setting for this occasion. One of Los Angeles' skilled florists was brought in. He was given carte blanc to provide the proper atmosphere. The result is a scene of rare beauty. Southern California—land of sunshine and flowers—is reflected on every floor. Easter lilies, roses, palms and plants lend a garden-like background to the gorgeous array of colorful merchandise.

The entire store is in tune with the Easter spirit—vast stocks tastefully displayed presenting a scene well worthy of your inspection.

Fought Governor's Effort to Exploit Road Funds

PHOENIX. April 4. (Exclusive)-Not at all obtrusive in the Eighth Legislature has been the small minor-ity of eleven Republican members. They have taken little part in the legislative roasting of the Governor but steadily have voted with the con-

publicans, however, have been stirred to utterance by a paragraph of the Governor's message to the single-day special session. They make declaration that "The Governor charges the Republican members with obstruction of the administration, and infers that our motives were ulterior and unpatriotic. The record of service is a clear and absolute refutation of such a charge."

What the Republicans did, they recite, really was to join with the conservative Democrats in an effort "to divorce the highway department from politics, place it on a business-like basis and reduce, as far as possible, the burden of the taxpayers." The majority members, including Democrats and Republicans, "have made an earnest attempt to prevent excessive expenditures of the taxpayers' money by the executive department. The Governor's budget for an appropriation bill called for a large increase for all departments

As is generally the case with destructive natural phenomens of this nature, there wasn't the slightest instructions that an evil hour for certain sections of Japan was pending. The sufferings of those affected was all the more poignant owing to a thick blanket of snow, in places as much as three feet in depth, which covered the affected rezions.

The quake was felt as far as Tokio and Yokohama, residents of these two cities clearly feeling a strange circular quiver. Seismic experts declare that the temblor was as intense as that which struck Tokio and Yokohama in September, 1923. The center of the shock is reported to be in Wakasa Bay, off the coast of the Sea of Japan.

For a time, there were wild rumors that Osaka and Kobe were a mass of fiames. Military airplaces few to the affected regions, however, and soon brought back the reassuring news that, silhough Osaka and Kobe had been severely rocked, the loss both to life and property in these thickly-populated industrial cities, was comparatively insignificant. It's easy to reach the mountain meadows

where Alpine flowers border playfields of snow...

THERE'S a Wonderland at your door when you vacation in the Evergreen Playground of Puget Sound and British Columbia. You may stop over night in any of the cities—Tacoma, Seattle, Everett, Bellingham, Vancouver and Victoria, B. C.—and spend your days in the mountains, or in the forests, or on an inland sea, which Theodore Roosevelt called "The Mediterranean of the North

Two or three hours from your hotel and you are deep in mountain meadows, in great fields of heather and Alpine flowers. You may snowball, ski or toboggan in vast playfields of snow and be back in splendid hotel surroundings at night. Where else can you swim in the surf and slide down glaciers the same day?

There are so many enjoyable things to do-so many places of scenic charm in the Evergreen Playground. It is never a question of "What shall I do" but rather "Where shall I go today?"

SEE... Raimer National Park, Snoqualmie Pass and the Cascade Mountain resorts, Hoods Canal, Olympic National Forest, Lake Crescent, Big Four, Monte Cristo, Chuckanut Drive, Strathcona Park the Butchart Gardens, Malahat Drive, Grouse Mountain, Stanley Park, Capilano Canyon — and these are only a part of the major attractions.

mmers are delightful, with excessive heat unknown. The average temperature from May to September is 60 degrees. A noon-day um of 85 degrees is rare. The vacation months are practically rainless, averaging only one inch a month. The air is a blend of snowcapped mountains, evergreen forests of fir and cedar, and of the sea.

If you go "Back East" this summer instruct your ticket agent to route you one way via "The Evergreen Playground." From California the through rate by steamer here and then eastbound is the same as your direct rail fare East. The all-rail trip via the northern lines is only slightly higher. In a letter withdrawing from representation of the syrup-raises, Sappiro wrote as one of four set reasons that he found the old religious prejudice against Jews working against him.

It was the first time the prejudice had been mentioned.

Another reason he assigned for withdrawal was that he had been given "the appearance of a promoter instead of a lawyer."

The Oregon co-operatives mentioned were the Oregon Growers' Cooperative Association, organized in 191A. and the Oregon Growers' Packing Corporation, 1920. Reed wanted fees listed, but Sapiro put him off until tomorrow, when records brought hy his brother will be available.

A CATACYLSMIC whisk from the comet's tail had stricken all the humans on the earth save one.

On Fifth avenue only a wrecked taxi here and there, its meter stilled forever, told of stark destruction, for the lethal blast had come in the small dark hours of the morning.

All was deadly still. Not even a cobweb with its busy spinner harred a door or subway entrance. The sky was clear of smoke and dust and steam.

The world's sole heir promenaded, clad in the best from a thousand haberdasheries, shaved to the blood, swinging a slender cane. He passed a plateglass window and turned his head to see himself pass by. Smart chap that—good chip—well set

# A Notable Fact

N the history of the oil industry in California one feature seems to have prevailed throughout the organization period of every company that now occupies a position in the front ranks of the oil industry. It is interesting to note that this one feature is again in evidence while we are witnessing the formation of the California-Eastern Oil Company.

We refer to the "hesitancy" displayed by many during the period in which securities of new corporations can always be purchased cheapest. History shows that these same skeptics are later the heaviest buyers when the price begins its upward climb.

Today, through the purchase of Julian Petroleum Preferred, investors are afforded the opportunity of acquiring shares in the California-Eastern Oil Company at very low figures. Probabilities are that a year from today present holders of these securities will be disposing of a portion of their holdings to the "hesitant" ones at a substantial profit.

Some interesting facts relative to this merger are contained in our 16 page summary of the annual stockholders meeting of the Julian Petroleum Corporation, copies of which will be mailed free on request.

Quite Topanga Well

The Standard Oil Company put a period to its development of the Topanga Canyon district, at least for the time being, according to officials of the company who state that the wildcat well on the Austin property which was started about a year ago is to be abandoned immediately. Bottom of the well is at 2503 feet, and although the hole is said to be in good mechanical condition, showings do not warrant further work on the well, it is said. No important indications have been found anywhere in the well, according to officials of the Standard.

The Standard has about 200 acres under lease in the Topanga Canyon district, where considerable interest was aroused about a year ago by the reported discovery of oil and gas in a shallow water well on the Austin ranch. The Standard's test was drilled not far from the Austin water well, but no report of the Austin showings has been made. The Standard is not surrendering the property, and it is possible that another well may be drilled elsewhere on the lease.

The problem of waste disposal, which has been a matter of much discussion in the townlot field at Huntington Beach during the past few weeks, is being solved through the medium of cesspools, which the various operators are constructing to care for the waste oil and water from their sumpholes. The problem is similar to the one which arose at Los Cerritos last year after the intensive development of that district, which was solved by the construction of \$100,000 pipe-line and sewer-farm system, which was completed only about a week ago.

Lack of adequate drainage and sewer facilities caused considerable trouble to operators and property owners at Huntington Beach, and made the construction of additional disposal facilities necessary.

Proceeds From Sale of Tickets Will Be Used to Build Good Roads Throughout Lower California; Direct Taxation Not Feasible

Tia Juana will be the scene of a colorful spectacle next Sunday when the first drawing in the Lower California lottery is con-ducted. Profits of the lottery will

be used for the construction of a network of roads and improvements in the northern district of Lower California designed to open that rich and undeveloped region to tourists.

Permission for the establishment of the lottery has been granted by the Mexican government. The concessionaire is Col. Estebah Santu, former Governor of the northern district of Lower California, who has long concerned himself with plans for the development of the region. The lottery system was chosen, it is stated, because, by reason of the comparatively sparse population of the district, taxation is not feasible.

The lottery will be conducted under government, State and court supervision. Its director-general will be Manuel Ramarez, who formerly served in the same capacity for the national lottery at Mexico City.

The plans for development of the northern district of Lower California call for construction of

more than 2000 miles of roads and highways. With the first proceeds of the lottery, it is planned, to construct an excellent highway from Tia Juana to Ensenada. This scenic region has been more or less inaccessible because of poor roads. Col. Cantu and Gov. Rodriguez of the northern district came to the conclusion that the only way to obtain proper roads is through a lottery.

Roads also are planned to reach all points of interest in the interior. Aside from scenic attractions, the region is said to be rich in mineral deposits.

"The world can expect to see a

rich in mineral deposits.

"The world can expect to see a network of roads throughout the entire district of Lower California within the next two years, now that this lottery has been sanctioned by the Mexican government," said Col. Cantu. "Por years we have longed to develop Lower California as the progressive Americans have developed Southern California. But we lacked the funds.

"We decided the most expeditious way to raise these funds was to adopt the methods of the Romans, the French, the British and the Americans in the early days of their history when money was difficult to raise by taxation."

THE NEW DRAMA

One thing that impresses me about the successful plays of the "new drama" of America; they do not depend upon situations, but upon interesting characters—and upon a certain narrative strength.

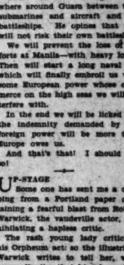

Among these successes I do not include the Broadway "sex" smut. They are not plays. They are just dirty stories recited behind the feetlights.

O'Chicago," by the way, is one of the few times that the American drama has really risen to irony. It is by a young Chicago woman named Maurine Watkins; and what she says about a modern criminal trial with the sob sisters and the jury is plenty.

It is outrageously funny, but upderneath the comedy is a bitter warning as to which way the American courts are headed.

Miss Watkins would have a really great play if she hadn't slipped her trolley in the last act.

damages for alienation of her affections.

Carr asserts his wife and Berry, after becoming acquainted at a dance given by the Michigan State Society, of which Berry is a leader, became involved in a tempestuous love affar, which resulted in a separation between the Carrs. He charges that Berry, although married, made love to Mrs. Carr and promised to marry her as soon as she could get rid of her husband.

Among the exhibits before Judga Gates was a love letter, written on a magazine cover, which Carr asserts Berry wrote to Mrs. Carr.

"She has caused me heart-sches and mental suffering until I have almost gone wild, and yet in my heart I love her." read another letter, which Carr had written to his mother-in-law shortly after his separation from Mrs. Carr. He later obtained a divorce on practically the same charges he makes in his alienation suit.

Berry, in his answer, admits having been on friendly terms with both Carr and Mrs. Carr. but denies he caused their estrangement.

Give Middle Age a Chance

LOS ANGELES, March 29.-[To

the Editor of The Times: ] What is to become of the woman over 40 who is compelled to work to keep a roof over her head and to eat—at least one meal a day? If she applies for a job she is often treated with scorn, as if she were a criminal and positively in some instances insuited. I know of a case where recently an intelligent, refined and able woman was told by a business man that she was "too d—d old" to act as cashier, a place she could have filled most admirably, because she told the truth and owned to being over the criminal age of 40. The man explained that he needed good-looking young girls to fill the place because they would attract men and bring business. I have been situated most of my

I have been situated most of my life where it has been necessary for me to hire help in different lines and I found it paid to discriminate in favor of the women not only 40—but 50—and older. I found them more dependable, trustworthy, industrious and conscientious in their work than younger women or girls. Why not give the tious in their work than younger women or girls. Why not give the alert, capable woman of middle age a chance to earn a living? Why this senseless youth madness? Must the woman over fatal 40 commit suicide or go out as a household drudge to keep from starving? I am speaking of those who are really forced to work, who are poor, often through no fault of their own. It is useless to complain of anything unless a remedy can be found and to that end I suggest that our wise and witty Councilmen, with THE RECENERATION

The silence of the odorous Police Court was suddenly broken by the call of the balliff—"Enrice Ayallo."

A short, gray-haired Mexican, ill kept and repulsive because of filthy clothing and unshaven face, but in whose face there shone an unusual tenderness, stepped healitatingly to the rail for arraignment.

The judge said: "You are charged with vagrancy and drunkenness; you will be in court Friday at 10 o'clock for trial and sentence."

The prisoner was led back to the great barred room among the human dregs of the underworld—men upon whose faces the passion of physical and moral degeneracy had left deep its mark of decay and anguish.

Pull the Seed Weeds

LOS ANGELES, April 1.—[To the Editor of The Times:]. This may be April Fool's Day but J. A. Graves is not fooling in his "Some Reflections."

More power to his elbow! Mr. Graves has called a spade a spade and told the plain truth, but I would like to ask a question.

When I was a boy on the farm my father taught me to pull up weeds while they were yet small, because the infamous redroot and pigweed, if allowed to attain full growth, had roots so long and so tough and well-seated in the ground that it were already in the going mad. (Correct. 25). growth, had roots so long and so tough and well-seated in the ground that it was almost impos-sible to get them out by pulling.

Mr. Graves has shown us what a weed-grown place Los Angeles is at this date and I would like to ask—why are we allowing the weeds to go on sinking their roots deeper and deeper into the life of this city? this city?

Everybody who can read or observe has known that these condi-tions have been steadily gaining ground ever since 80 per cent of our voters remained away from the polls and allowed 20 per cent to elect our Mayor.

It was then that the man who, detectives told me later, must have been Jesse James, prevented him from carrying out his threat.

"The colored porter, at the first signs of trouble, ran and nid in the men's washroom in one of the cosches and could not be coaxed out until long after the bandits had left. The hold-up took just abour one hour. The bandits had stopped us by grabbing the watchman at the bridge over the Lamine River and forcing him to flag us down with his red lantern.

A recent report maje by the Chamber of beach frontage and its ownership shows that only 9.1 miles is publicly owned. This represents 13.5 per cent of the coast line. Beaches now publicly owned can only hold a maximum of 191.940 people, which is less than 9 per cent of the total county population.

The total coast line, states the report, can be divided into five classifications of frontage, according to the width of the beach, as follows: More than 150 feet wide, 10 per cent: 50 to 100 feet wide, 16 per cent: 50 feet or less, 21 per cent; and no beach at all, 39 per cent.

#### Safe Robbers Use Too Much Nitroglycerin

Carpenters as well as police came in the wake of thieves who attempted to rob the Piggly Wiggly store at Sixth and Slauson avenues yesterday

Sixth and Slauson avenues yesterday at 3 a.m.

The robbers "loaded" the safe and so bungled the job that they got in about twice the amount of necessary "soup," as their explosive is known in underworld speech, blew the heavy safe door twenty-five feet across the room and to the top of a fifteen-foot ceiling where it crashed through the plastering and broke joists and jammed the sidewall out an inch.

Frightened by their own noise the yeggmen ran from the place wishout getting any money. They got only some cigarettes and candy with which they had provided themselves before the blasting.

Some months ago a former manager of the store was held up and robbed of the day's cash receipts, Manager A. B. Harris said.

LECTURE TO BE GIVEN ON BAKERY PRODUCTS

The Pleishmann Company will give products at 39 Garfield avenue, Pass-gena, at 8 p.m. tomorrow. The speakers will include D. B. McCar-thy, W. R. Bumier and C. Hudnai, alli-of the Fleischmann staff.

When on January 1, 1927, Safeway Stores of Southern California adopted a policy of sharing the profits and stock ownership with their store managers and executives, it was assumed that such action would result in an increased volume.

However, even the most optimistic had not accurately anticipated the immediate increase in individual effort and general impetus which was to result.

April finds us at the close of our first quarter's operations under the new plan with 21 per cent increase in sales, still growing, and in a mood to celebrate by sharing our good fortune with the public.

Therefore from April 5 to 9, inclusive, the 1000 partners of Safeway Stores invite Mr. and Mrs. Consumer of Southern California to pay us a visit, note the improved appearance of our stores, share in the bargains and accept our assurance that many like treats are in store for them in the months to come.

There's a merchant in Singapore, another in Ceylon, still another in Weltervreden whom you ought to know! They will take that extra output which you can't sell at home-and make a handsome addition to your yearly profit!

BANKING SERVICE F TRADE - TRAVEL

In going after foreign trade, you will have co-operation which, in its scope and effectiveness is little short of marvelous.

First-from the United States Bureau of Commerce. It places a world-wide organization of commercial scouts and foreign trade experts at your command.

Making special application of that service to the needs of Southern California-and adding valuable activities of its own—is the Trade Extension Department of the Los Angeles Chamber of Commerce.

And finally, to handle the financial features of your foreign business, such as checking the credit of foreign customers, collections, foreign exchange and financing shipments, the Farmers and Merchants National Bank offers you a highly perfected foreign trade

The rich possibilities of foreign trade deserve your prompt and serious consideration. Come in and discuss the matter with the officers in charge of our foreign trade department.

Thomas Wilkes to Produce

Monday night marks the opening at the Majestic Theater of Garland Anderson's drama, "Appearances." Interest in the play lies in the fact that it was written by a negro, the first negro to have a play produced on Broadway, New York.

Many will recall that Anderson is the San Francisco "belihop" who attracted the attention of Al Joison with his initial effort to the extent that Joison paid his expense to New York and brought him into contact with the producers there.

In a short space of time and for the first time in the stage history of New York a negro's name appeared in electric lights as the author of a Broadway production, which opened at the Frolic Theater.

Thomas Wilkes, who is sponsoring its local production, has gathered together a cast with Ralph Cloninger in the leading role and Carol Wines playing opposite. The cast includes some thirty-five players among whom are Freddie Cummings, Olaf Hytten, Nenette Valion, Doris Ingram, Daris Hudson, Ethel Baker, Fergus Red-

Paraphrasing Lincoln's famous words:

The Bank of Italy is...

A bank created by the people

The Bank of Italy owes its success and magnitude to the socalled "common people"—the hundreds of thousands of men and women of moderate means who compose the very bone and sinew of our population. It is the goodwill and loyal patronage of these substantial citizens that has made California's largest bank.

A bank owned by the people

Unlike many large financial institutions, the Bank of Italy is not owned by a few wealthy persons. It belongs to nearly 15,000 people scattered throughout the state from Oregon to the Mexican line. These people are in almost every walk of life - and they include 3,500 employes of the institution itself.

A bank operated for the people

The Bank of Italy caters to the great rank and file of citizens who are making California famous as a vast empire of industry, economy and thrift. The institution believes strongly in helping those who are trying to help themselves. No deserving individual has ever been refused service or consideration by California's Bank of the People-The Bank of Italy.

New designs similar to the French are being originated also in Austria, Mr. Barker said, especially some new things in glass. In Germany he found an art center springing up near Munich. The British are retaining conservative designs in furniture and hangings, in sympathetic development from the designs on which the American colonial styles were based. "My most striking impression," he said, "was of the dominance of 'new art' in all its phases."

## Diego Marines Caught by Camera As They Parade Shanghai

First Photos to be Received in Los Angeles, Showing Fourth Regiment Marines, the first contingent to be shipped into the Chinese trouble zone, as they landed in Shanghai, are presented herewith. These marines are all from San Diego and constitute the force which sailed aboard the U.S.S. Chaumont. Photos were taken in Nanking Road as the American "leathernecks" set foot ashore for the first time.
